

YOUR GARDEN
LIGHTING SPECIALISTS

AT KG ELECTRICAL CONTRACTORS, WE HAVE PROUDLY EVOLVED OVER THE PAST DECADE INTO A LEADING NAME IN THE ELECTRICAL CONTRACTING INDUSTRY.

This year, we continue to expand our expertise and reach, solidifying our reputation as a premier provider of external lighting and power solutions.

Although we handle a wide range of electrical installations, our true passion lies in enhancing both private and public outdoor spaces. Our dedicated team works tirelessly to illuminate and energise landscapes across the nation, making every project shine brighter.

We are committed to supporting landscapers and designers in enhancing their projects through our thorough design assistance, effective installation, and expert consultancy services. Our strategic planning allows us to seamlessly integrate electrical solutions into landscapes of all sizes—whether it's a cozy courtyard, a grand manor, or expansive public areas.

Having collaborated with some of London and the home counties most esteemed landscapers and designers, we are proud to have our work featured in several award-winning projects recognized by SGD, BALI, and APL. This year, you can see our contributions at notable locations such as 66 Shoe Lane and 250 City road in London, and numerous private gardens throughout London and the home counties.

Join us as we continue to light the way for exceptional outdoor environments!

... As we look to the future, I am excited about the opportunities that lie ahead. We are eager to continue building on our successes, creating even more impressive projects that enhance the beauty and functionality of outdoor spaces ...

Kyle Gamble
Owner

BERMONDSEY COURTYARD | LONDON

Landscaper – Farmlane **Designer** – Landscape Plus **Lights** – Hudson, Hunza, Nordlux

Our friends at Farmlane landscapes brought this exciting project to us as part of a trio of collaborations.

Whilst the courtyard may be small it certainly makes up for it in character and features!

There are various lighting elements within the courtyard, feature lighting, functional lighting and bespoke manufactured lighting from the team at Hudson Lighting!

This is certainly a lovely to space to dine and enjoy the ambiance created by the lighting scheme.

250 CITY ROAD | LONDON

Landscaper – In-Ex Landscapes **Designer** – Gillespies **Lights** – Bega, Orlight, DW Windsor

Our first project working alongside the fantastic team at In-Ex Landscapes and what a project to start with!

There are several phases to this exciting lighting scheme which runs through the public gardens of Berkeley homes latest housing development. This project is just as much about aesthetics as it is functionality and safety.

The handrails by all ramps & steps are illuminated, the sleek looking lamp posts provide ample lighting along the paths, all working in tandem with the many recessed feature lights in the planters, benches and water features.

LONDON COURTYARD |

FOULDEN ROAD

- | **Landscaper** Farmlane
- | **Designer** Andrews Garden Design
- | **Lights** Astro, Leyton, Hunza

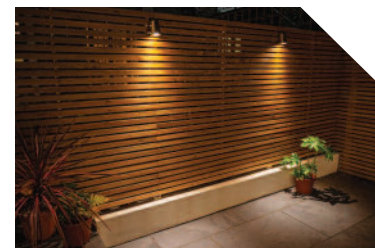

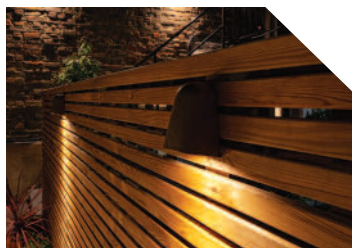

The second part of the trio of projects from Farmlane landscapes is this fabulous courtyard in North London.

This well designed courtyard features plenty of seating along with all important BBQ area.

The lighting scheme here follows a similar pattern to other projects – it is multi-faceted in design and function.

We have safety lighting down the stairs, functional lighting over the BBQ area and hidden feature lighting around the seating and planting areas.

Our expertise in garden lighting allowed us to offer additional ideas to enhance this project and help ensure the lighting scheme truly elevates the ambience.

STEVENAGE FARMHOUSE | HERTFORDSHIRE

Landscaper The School Grounds Company | **Designer** Simon Smith | **Lights** Hudson, Leyton, Stone Globe

This beautiful farmhouse in the Hertfordshire countryside marked our first collaboration with Simon Smith, an experienced garden designer whom we were delighted to meet at last year's show.

Simon sought our expertise to integrate lighting into his design, and we worked closely to advise and guide him throughout the process.

The result is a stunning outdoor space that perfectly complements the charm of the old farmhouse.

By carefully positioning lighting to highlight key features of the garden and architecture, we helped transform this countryside retreat into a warm and inviting haven, day and night.

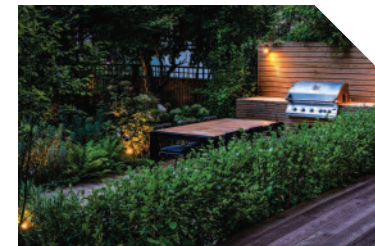

PRINCES AVENUE | NORTH LONDON

Landscaper Nordland | **Designer** Shelley Hugh-Jones | **Lights** Hunza

As part of our ever-growing collaboration with Daniel at Nordland Landscapes, we transformed this hidden North London garden into a serene retreat.

The lighting scheme was designed with both functionality and beauty in mind, creating a space that comes alive at dusk. We incorporated ambient lighting to highlight key planting areas, subtle safety lighting along pathways, and practical task lighting around the outdoor kitchen.

Our expertise allowed us to suggest creative solutions that not only enhanced the aesthetic but also elevated the ambiance, turning this urban garden into a magical, illuminated escape.

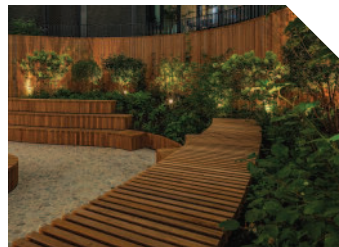

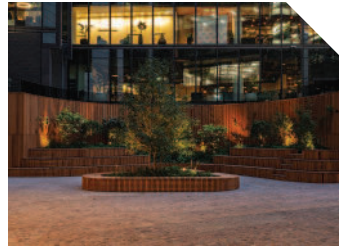

SHOE LANE | LONDON

Landscaper Landform | **Designer** Kyle Gamble | **Lights** Bega, Leyton, Hunza

At 66 Shoe Lane, we collaborated closely with Camlins and Landform Consultants, marking our fifth project with Mark Gregory and his exceptional team.

This public space, nestled between the head offices of a major accounting firm, required a thoughtful lighting design to balance aesthetics and functionality. Working from the initial design intentions, we crafted a bespoke lighting scheme that accentuates the space's modern architecture while providing a welcoming environment for passersby.

Among the many highlights in this project is the breathtaking starry walk, achieved through fibre optic lighting, creating a captivating experience within this urban oasis.
